

TOTAL SOLAR ECLIPSE IN EGYPT 2027
HURGHADA – LUXOR & CAIRO EXPERIENCE
7 Days / 6 Nights

Some journeys stay with us for a lifetime, and some experiences are forever etched in our memories. In August 2027, Egypt invites us to embark on a truly exceptional adventure: discovering the treasures of one of the most fascinating civilizations in history while witnessing one of the most extraordinary astronomical events of the 21st century — a total solar eclipse lasting more than six minutes.

Our exclusive 7-day tour will take us from the historic heart of Cairo, where the majestic Great Pyramids of Giza and the enigmatic Sphinx will transport us back to the splendor of Ancient Egypt, to the crystal-clear waters of the Red Sea in Hurghada, an ideal destination to enjoy relaxation, sunshine and breathtaking scenery.

The highlight of this extraordinary experience will take place on August 2, 2027, in Luxor, when the sky presents us with an unforgettable celestial spectacle. At 1:02 p.m., the eclipse will begin, and at 1:05 p.m. the Moon will completely cover the Sun, plunging the landscape into extraordinary darkness for 6 minutes and 23 seconds during totality. A magical moment when daylight transforms into a mysterious twilight, allowing us to witness one of the longest total solar eclipses of this century.

Against this incomparable backdrop, surrounded by the millennia-old history of the Nile Valley, we will also discover some of Luxor's most iconic monuments, including the legendary Valley of the Kings and the magnificent Karnak Temple, timeless testimonies to the greatness of the pharaohs.

More than just a holiday, this journey is an invitation to experience two extraordinary adventures in one: the excitement of witnessing a remarkable astronomical phenomenon and the privilege of exploring the places where one of humanity's greatest civilizations was born.

Seven days to discover Egypt, enjoy the Red Sea and witness one of the universe's most spectacular displays in the legendary land of the pharaohs.
