ECLIPSE CHASERS

We are eclipse chasers since 1989, when we lived our first Total Solar Eclipse in Bolivia, an unforgettable experience. Since then, we were fascinated with the idea to organize tours on places where we usually work. We did it the last two years in Argentina and Chile and now there are events we want to chase, in areas we know very well, full of ideas, ready to concrete your plans and with the best partners in every country. Our goal is to make you feel at home, visiting breath-taking places, living the culture, the history and the local gastronomy. And of course, living your eclipse adventure with **EUROLATINO**
