

COSTA RICA FAMILY TOUR

 fly & drive

17 days / 16 nights

EUROLATINO Tour Operators invites you and your whole family to come to Costa Rica and enjoy the nature and wildlife of one of the most biodiverse countries on Earth. Here you will get the chance to (hopefully) see many different types of animals, plants, and insects in their natural habitat. We have planned a trip that takes you to some of Costa Rica's most unique regions, each with its own characteristics, weather, wildlife and people.

This trip was specially put together for the enjoyment of kids in mind. There are many opportunities to personally see animals, as well as tours and activities that will certainly entertain your children. The hotels were chosen because of their family-friendly service and facilities. We have detailed why the chosen regions of Costa Rica for this tour offer fun and leisure for travelling families.

Costa Ricans (or Ticos as they're commonly referred to) are known for their positive attitude and friendly ways, which can be summarized in their favourite expression: Pura Vida. Costa Rica has been denominated as the happiest country on planet Earth many times by many studies. This way of living translates into good service, some might even say the best customer service culture of Central America and the Caribbean. This tour is designed for families with 2 adults and 1 - 2 children, or for 3 adults travelling with 1 child. There is a maximum of 4 people per room. So don't hesitate to bring your whole family, we promise a good time for the young and the young at heart!

Breakfast at the hotel. Tortuguero National Park covers more than 26'500 hectares of rainforest and coastline. It can be reached only by boat via an extended river and canal system, or by plane. Over 300 bird, 30 frog and toad, 28 snake, and 6 sea turtle species can be found in this humid part of the country. The driest months in Tortuguero are February, March, and September; however, even then it's a good idea not to leave your raincoat behind. During two boat tours in the canals of the Tortuguero National Park, you have the opportunity to spot quite a variety of different bird and animal species. In the months from July to September (during the nesting season of the sea turtles), you can take your whole family on an adventurous turtle tour, where you can watch the turtles lay their eggs in the protected beach of the national park.
