„The new era“

Including 7 days **ALL INCLUSIVE** in the Riviera Maya  
**16 days / 15 nights**

*The Mayans were an ancient people who have lived in Central America and were highly developed, such as Greeks or Egyptians. Their temples and pyramids in the Yucatan province marvel today millions of tourists. The Maya were a spiritual people connected with nature and the cosmos. The stars fascinated them. Their mathematicians and astronomers were significant. They observed the movement of the stars, the moon and the sun. They could already determine exact solar and lunar eclipses, and the close on upcoming of floods or dryness. The Maya predicted for 21.12.12 an extremely rare planetary alignment. According to current research, the sun and the center of the Milky Way converged in the last 2000 years and that is what the Mayan astronomers have seen coming.*

*The Mayans understood not as the end of the world, but only the end of a time cycle. They believed that each time a cycle ends in a natural disaster. Then begins a new cycle. The 21.12.2012 was for the Mayans a kind of time transition similar to the present millennium.
