

GREEK ISLAND HOPING FOR HONEYMOONERS

Do you know why is the trip after getting married called "honeymoon"? The word "honeymoon" itself is derived from the Scandinavian practice of drinking mead, or fermented honey, during the first month of the marriage (measured by one moon cycle) in order to improve the likelihood of conception. In the practice, if you and your spouse are planning a honeymoon, you are getting into a tradition and a privilege many couples enjoy if they have the opportunity. And if you have the means to plan a post-nuptial getaway, it's easy to understand why you'd want to enjoy one: A honeymoon is a time to bond, relax, celebrate as a couple, reflect on your relationship, and look ahead at what's to come.

Planning a honeymoon does not mean to go to the beach and just relax. It's the time to enjoy as a couple, to explore a region, a city, a village; to hike, to ride together. In fact, to use a time for both of you. Here we offer you to know some of the more than 1000 islands that belong to Greece. Start with a day cruise to the best Saronic Island Aegina, Poros and Hydra, being the latter one of the most beautiful Greek islands. Continue onboard a ferry boat to see the most important of the Cycladic archipelago located in the center of the Aegean Sea, visiting three (or four) iconic destinations, End this voyage in the splendour of beautiful Santorini. Come with us to this iconic Greece and live your adventure.

Walk through Mykonos town and to the most famous spots like Little Venice, the windmills, Paraportiani church, as well as the beautiful whitewashed streets and little alleys and Mykonos harbor front. The tour ends at the bus stop of the old port. In the afternoon we will start a private guided Delos tour, the birthplace of the god Apollo and his twin sister Artemis. This place is not only one of the most important Greco-Roman settlements but also one of the most extensive. It's an extraordinary insight into power struggles, religion, art, commerce and everyday life in antiquity. The entire island is an open-air museum. Exploring the UNESCO-protected World Heritage Site, you walk through history dating from Mycenaean times, in the 3rd millennium BC. However, Delos' peak was from the 6th-1st century BC, amidst a constant interplay of Athenian and Roman domination – interspersed by the influence of powerful Cycladic neighbours, such as Naxos and Paros. It's a story now told through a bewildering number of sanctuaries and statues, as well as public and private buildings and the artefacts they once contained. Back to Mykonos. Overnight at Semeli Hotel 5***** **(B)**

It's also home to the Panagia Ekatonapiliani, a landmark Byzantine church from the 4th century A.D. The namesake capital (also called Hora or Chora) is a port town filled with whitewashed, cube-shaped houses and medieval Venetian mansions. Kastro, a hilltop castle dating to the 13th century, houses an archaeological museum. The ferry takes 1 hour and 45 minutes to get there from Paros. If you are interested, please let us know to include it on your package. **(B)**

DAY 8 Thursday PAROS - SANTORINI

Breakfast at the hotel. On time transfer to the harbour for your ferry ride to the next amazing cycladic island, Santorini. Upon arrival transfer to your hotel. Santorini is a small circular archipelago formed by volcanic islands in the south of the Aegean Sea, which is part of the Cyclades. Its name is of Italian origin granted by Venetian merchants to Thera, Greek name of this island steeped in history. The story behind this island is the stuff of legends – in 1600 BC after a volcano erupted and its center collapsed into the sea, it left behind parts of its caldera that today form the island. Enjoy the rest of the day relaxing at the beautiful beaches. At the evening, we suggest an optional tour to Oia on the northern tip where you will see a spectacular sunset, a background for typical whitewashed houses with blue frames and churches. You can also go to Caldera Beach, the only one that faces in toward the caldera and gives you a discernible sense of the volcano's immensity. A massive volcanic eruption around 1650 B.C. forced the center of what was then a single island to implode and succumb to the sea. Today, Santorini consists of two inhabited islands and several islets. Most visitors spend their time on Thira (the archipelago's largest island), which is home to Santorini's major towns, including Fira and Oia. Accommodation on the island. **(B)**
