Upon arrival, transfer from the airport in Baltra to the Monique Cruise Ship (Luxury) for a 4-night cruise. In the afternoon, head to Witch Hill, a secluded bay with fine white sand and crystal-clear waters perfect for swimming or snorkeling. Its shallow saltwater lagoon offers a peaceful setting ideal for spotting marine life and enjoying views of Kicker Rock from a unique vantage point. During a circumnavigation, you will enjoy breathtaking views of Kicker Rock — a towering, twinpeaked volcanic formation rising from the sea. This iconic landmark is a haven for seabirds such as blue-footed boobies and frigatebirds, often seen perched on its narrow ledges. Overnight on board. **(B) (L) (D)**

DAY 5 GALAPAGOS Santa Fe and South Plaza Islands

Breakfast on board. In the morning, begin your morning by landing on Santa Fe, one of the oldest islands in the Galapagos, known for its towering forests of Opuntia cacti and distinctive pale-yellow land iguanas. Hike along scenic trails that lead you across the island's arid landscape or into the highlands where these endemic iguanas bask under the sun. In the afternoon, explore the compact yet incredibly diverse South Plaza Island. Its vivid red and green Sesuvium ground cover contrasts dramatically with the island's black lava and towering prickly pear cacti. Here, you can often see swallow-tailed gulls, tropicbirds, and other seabirds. **(B) (L) (D)**

DAY 6 GALAPAGOS Bartolomew Island and Sullivan Bay (Santiago Island)

Breakfast on board. In the morning, you will discover Bartholomew Island. Once here, you will ascend to admire the spectacular panorama of the Sullivan Bay and the famous Pinnacle Rock. The beaches at the foot of the Pinnacle Rock are excellent for snorkeling from which you can discover the marvelous underwater world, and with a little luck, you'll get to snorkel with penguins. In the afternoon, you will visit Sullivan Bay, located on the east coast of Santiago Island. We land on a white coral sand beach and begin our walk over lava that flowed less than 100 years ago. This is the perfect place to see and feel the volcanic origin of Galapagos. Also, in this area you will admire flora that grows in lava fields. Dinner and overnight on board. **(B) (L) (D)**

DAY 7 GALAPAGOS Prince Philip's Steps (Genovesa Island) and Darwin Bay (Genovesa Island) Breakfast on board. In the morning, you will go to El Barranco (Prince Philip's Steps), a carved out of stone stair. This will lead you to a wide plateau, where you can observe large colonies of masked boobies, frigate birds, storm petrels and ducks. During this easy stroll you will cross a small Scalesia forest, habitat of the short-eared owl. The same path will lead you back to your boat. In the afternoon visit to Darwin Bay, which is the only sandy beach found in the caldera on Genovesa. Colonies of the Great Frigates are found along the beach. Male exhibit their red balloon pouch to females for hope of a match. Red-footed boobies nest in the trees in contrast to the other two booby species which do so on the ground. Dinner and overnight. **(B) (L) (D)**

DAY 8 GALAPAGOS - QUITO Black Turtle Cove (Santa Cruz Island) - Return to Quito

In the morning, you'll explore Black Turtle Cove, located along the northern coast of Santa Cruz Island. This site vividly demonstrates how mangroves shape the marine ecosystem, forming a vibrant and unique habitat. Three different species of mangroves extend from the shore deep into the water, stretching nearly a mile inland. While gliding silently through the calm waters aboard a dinghy, you may spot spotted eagle rays and mustard rays gracefully swimming in formation. Keep an eye out for white-tipped reef sharks gliding beneath the surface and Pacific green sea turtles surfacing to breathe or mate. The area is also a haven for waterfowl, such as pelicans, herons, and egrets, all drawn by the cove's rich feeding grounds. After your Galápagos experience, you will return to Quito for a final night of rest at the Wyndham Quito Airport Hotel, staying in a comfortable and modern deluxe room. **(B)**
