The settlement was destroyed by a huge eruption during the 17th century BC and buried under the volcanic ash, which preserved the whole city in perfect conditions so as to be referred often as “Prehistoric Pompei” The settlement has been suggested as a possible inspiration for Plato's story of Atlantis. The site has been excavated since 1967. (Guided tour 1h 30m). Entrance Fees are not included in the price. We will continue with Red Beach, where we will have some free time for photos or for a walk along the coastline. Soaring red lava cliffs drop right to the sandy shore and into the clear blue sea.
