# PHOTO TALES OF CROATIA

11 days/10 nights

*Croatia is a country at the crossroads of Central and Southeast Europe on the Adriatic Sea, part of the Balcan Countries and member of the European Union. Its capital and largest city is Zagreb. Part of the territory in the extreme south surrounding Dubrovnik is a practical exclave connected to the rest of the mainland by territorial waters but separated on land by a short coastline strip belonging to Bosnia and Herzegovina. Insular Croatia consists of over a thousand islands and islets varying in size, 48 of which permanently inhabited. The largest islands are Cres and Krk. One of the columns in the Croatian economy is the tourism, concentrated mainly along the Adriatic Coast. The most significant areas are nautical tourism with more than 16000 berths, cultural tourism relying on the appeal of medieval coastal cities and health tourism. Geographically offers from mountains (the highest peak is the Dinara at 1831 m.) to flat plains in the east part. The Adriatic coastline and islands as well as the Plitvice lakes, a system of 16 lakes with waterfalls connecting them over dolomite and limestone cascades are the most visited areas. Our offer in Croatia for photographers includes most of the beloved regions and sightseeing, ideal to let your imagination fly and to prove your photography skills.
